Hello (H1)

Hello (H2)

Link

Here's a link to [Codepen](https://codepen.io).

Code Block

1. Open the file.

2. Find the following code block on line 21:

```
<html>
```

```
<head>
```

```
<title>FCC Markdown Previewer</title>
```

```
</head>
```

3. Update the title to match the name of the website.

Inline Code

Hello (H1)

Hello (H2)

Link

Here's a link to Codepen.

Code Block

Open the file.

Find the following code block on line 21:

```
<html>
```

```
<head>
```

```
<title>FCC Markdown Previewer</title>
```

```
</head>
```

Update the title to match the name of the website.

Inline Code

Some inline code: `<addr>` .
